# YOUR GIFT HAS THE IMPACT OF A LIFETIME

Five years ago, I sold my television, car, bed, and nearly everything I owned to afford tuition at a 4-year college. But two years after enrolling, I dropped out due to financial hardships. It felt like my world came crashing down.

Almost immediately after dropping out, I enrolled in a local community college in San Diego. And that college opened up numerous doors for me, one which led to a full ride to UC San Diego thanks to the Chancellor's Associates Scholarship. And last spring, I walked through that door by graduating with my Bachelor's Degree in Political Science.

I'm extremely thankful for my second chance, but it's no secret that thousands of hard-working students like me don't get a second chance. More than often, they don't even get the first chance. A lot of times, it's due to circumstances out of their control such as what they look like, whom they love, or how much money their parents make. It's why I not only worked my tail off every day in my classes but also why I'll continue my education through law school. I want to gain the necessary skills to be able to make sure every student succeeds.

Thank you so much to everyone who has given to the Chancellor's Associates Scholarship. I hope to return the favor one day to other students in the future just like me.

Best,
